Our 2022 Collector Edition Meadowflower Cabinet is a versatile, multi-room piece that provides storage and a functional surface wherever you need it. Crafted of solid oak, it features a raised top that doubles its surface area, an adjustable shelf behind two doors, and striking inlays in the style of Harvey Ellis but drawn with a modern touch. And through its design—a stylized arrangement of cornflower and mint—it sends a subtle message, in the manner of the Victorians, of comfort in difficult times. The clean, elegant Meadowflower Cabinet is easy to imagine as an end table, bedside table, entry cabinet, coffee station, and much more.
